Let's Hail 2023

To a pregnant lady and her family

Normal delivery of the baby Is a matter of relief and satisfaction.

Thus, normal delivery of 2022

Is a matter of joy,

An event of celebration.

2023, born in the state of

Native as well as global normality

Is a precious gift

In absence of any abnormal bond or rift.

Welcome! welcome! welcome!

O Normality!

Thou are not so valued as should be,

Though thou are

The mother of all extraordinary.

We count failure or success,

Achievement or loss,

And ignore the state of normality,

That is the creator of the New,

The producer of the feats though few.

Come friends!

Let's hail 2023.

The lovely baby of Normality.
