The Unfortunate Floods That Occurred Last Monsoon

The unfortunate floods that occurred last monsoon
Showers that made crops shine,
monsoon filled us with great divine,
those drops that fell on the earth,
appreciating them is worth.
Unfortunately; are the floods caused,
Offline classes have been paused,
sales of tomato crops decline,
and thus prices recline,
i wonder how the poor manage,
As the cheap prices of crop vanish.
These rains now create pain,
for it is not the enjoying rain,
Metros shut and we are bound,
by the yamuna water roads surround
knowing it's hard to stay as this season comes once a year,
but floods reaching pragati maidan you must in news have hear,
blocking the supreme court and indian gateway,
May everything become good with the new sun ray,
Remember safety was first,
As the situation of floods became worse.
