Eternity... Two ... : A Sonnet

With the form of realization, the truth is
Owed to the iteration with moments through facts
And feature where the sensation with, ah! His
Companionship is entangled for acts.

Eternity multiplies with joyfulness
And it is wealthified to positive thinking
Where neutrons of love are justified with fineness;
Here the light of utility is certainly ranking...

Another belonging of it is vibrated
With simplicity and humbleness, at all,
And it is too affluenced and recreated
The human virtues aptly; that is global.

Eternity is sublime and benevolence;
That is unified with uniqueness as reference.
