Society Benchmark

No need of society benchmark
Forget about superficial judgments
I was, I am and I will be free of all shallow agreements

I know you have been through it
And you feel it as proud
But sorry to say, not courageous enough
To stand out of the crowd

I am all-powerful to stand alone
But I accept the importance of integrity
Do not push me on quality standards
I am all-above your sovereignty

Some may call it arrogance
Others may just oppose
But it's surely not worth changing my individuality I suppose

You can't make me feel guilty
For not fitting in parameters you set
I am free to live, I am free to laugh
I am free to return whatever I get

I do not question your mentality
Neither it is my concern at all
You chose to follow the society benchmark
that was altogether your call.
